Skills

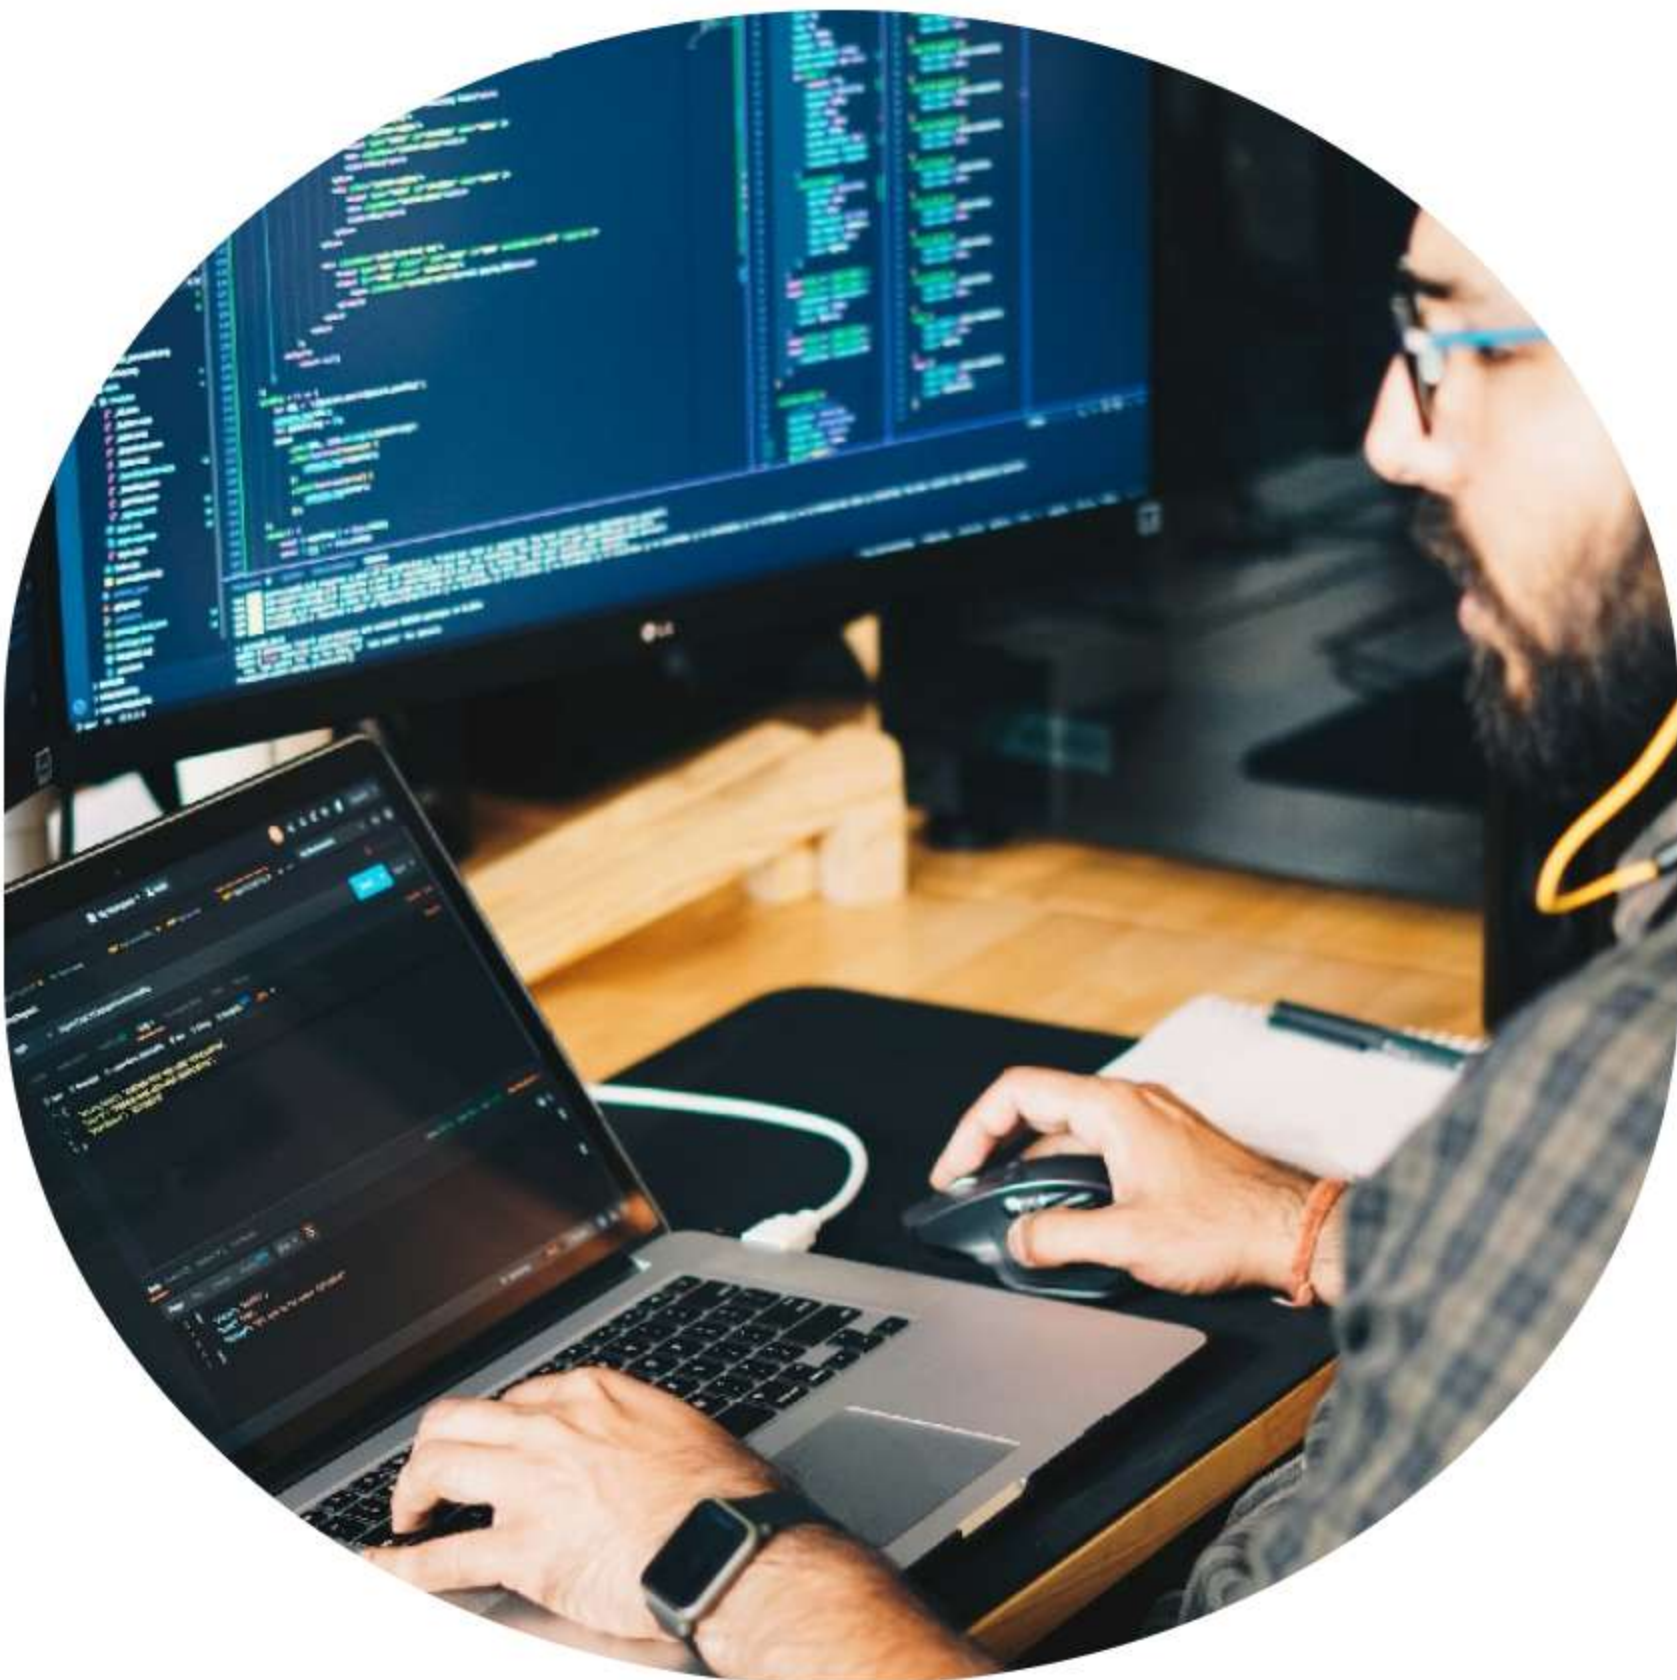

Technology

During my internship and project development, I successfully utilized the following technologies.

I'm Pradip I live in Mumbai, where I design the future.

I've worked on a variety of projects over the years and I'm proud of the progress I've made. Many of these projects are open-source and available for others to explore and contribute to. If you're interested in any of the projects I've worked on, please feel free to check out the code and suggest any improvements or enhancements you might have in mind. Collaborating with others is a great way to learn and grow, and I'm always open to new ideas and feedback.
